Re Electric Bikes / Scooters

Dear Parents / Carers ,

Please could we reiterate that we do not allow pupil electric bikes / scooters on site at all.

Historically, we have had a number of accidents involving normal bikes / scooters running into visitors arriving / leaving school over the past few years. The speed of electric scooters and bikes (together with their weight) means that the potential for serious injury would be proportionately higher if we were to allow their use.

Additionally, these cost significantly more than conventional bikes / scooters, and the school cannot be responsible for any thefts.

If your child has an electric version, please do not allow them to bring them to school.

Thank you for your support with this matter.

Kindest regards

Mr Richard Lilley (Principal)
